LDC has been established in 1968 from the merger of families Lambert, Dodard and Chancereul. The Group is today N°1 for poultry on the French market, one of the leaders in Europe and N°2 for convenience. We want to keep on offering our consumers qualitative, secure and affordable products, with strict traceability under strong brands.

The confidence coming from our clients, our collaborators as well as from our farmers has been essential to build up the group. The latter is composed of small companies working as independant profit centers, each of those developing a projet in accordance with the Group' strategy. Their integration has been achieved by taking into account their history, and with sharing our experience acquired through each new acquisition with the aim of enhancing everyone's reactivity, efficiency and performance. The success of each of those business units is based on their capacity to innovate in every domain.

We act with responsibility and with everyone's respect in order to encourage harmonious growth.

For that, our collaborators' health is and will remain our priority because they are the people ensuring the quality of our products, the on-going improvement at every step of the chain and a sustainable and harmonious working life all together.

Our success is the result of the talent and dedicated work of all men and women working day after day with passion. Together, we will face new challenges on the domestic market as well as abroad to keep on bringing LDC's group growth, health and sustainability.

Denis Lambert,
LDC Chief Executive Officer

“The success of the group is based on men and women's dedicated work, with as top priority end-consumers as well as collaborators health. This success will be the guarantee of a sustainable development.”

OUR Project

To feed our consumers with quality, accessible, healthy and environmental friendly products. Products coming from sustainable sectors contributing to the development of local areas.

To meet our consumers' needs in bringing them quality, service, good availability and innovation.

To make sure that everyone feels comfortable within the group and encourage goodwill, respect, active listening and shared performance between colleagues, farmers or partners of all sectors.

OUR VALUES

WORK

We like well-done work, well organised actions that help solving problems on a daily basis delivered by the management team and employees.

INNOVATION

From the outset, we create, we invent in all channels: product, technical, social. Always with the same goal: improving the raw material balance, the quality and the working conditions.

RESPONSIBILITY

Being responsible means acting and taking decisions in the interest of the group. It is also investing for the future, for the safety and the good health of our colleagues, as well as the group sustainability by taking into account the environmental footprint of our activities.

RESPECT

Respect, is what we have for our clients, our employees and for our farmers. Respecting means listening, owning up to mistakes we make, promoting team work, and building a common understanding of our strengths and weaknesses.

PERFORMANCE

Performance means sharing good practice and focussing on our on-going improvement. It is also about promoting a result-oriented culture whilst accepting reflection at the same time.

SIMPLICITY

Humbleness is one of the core values that characterises our Group. It is important for everyone to remain accessible, to get straight to the point. Above all it means using our common sense.

LDC

LDC GROUP'S *Organisation*

Executive Committee

+ Functional Management

LDC GROUP'S

Corporate Responsibility

For more than 50 years, LDC has engaged itself on strong commitments:

- its strong relationship with the agricultural stakeholders and the contractualisation,
- its qualitative products under quality label recognition (Label Rouge, Organic, PDO, etc.),
- the local origin of its poultry that are born, raised and transformed at a regional or at national scale and now extended to the elaborated products and ready-meal solutions for both France and Europe,
- sharing of the familial values and performance particularly among its collaborators (investment, shareholding, financial participation, etc.),
- healthy products that take into account the food security and remain accessible for the consumers.

Its ongoing improvement projet entitled *"Acting with the territories"* will be kept on by 2025. This project is based on 4 primary engagements anchored in its ecosystem:

feeding well, living well together, rearing sustainably and respecting the land.

Acting with the territories

TO FEED WELL

GOALS	INDICATOR
<p>To satisfy our clients and thus our consumers</p>	<ul style="list-style-type: none"> • Satisfaction rate
<p>To act for food security</p>	<ul style="list-style-type: none"> • Number of certified plants with IFS, BRC or ISO 22000.
<p>To act for Nutrition and Health matters through our products</p>	<ul style="list-style-type: none"> • Products that are A, B, or C according to the Nutri-score grading system. • Clean label products (additive free, etc.)

TO LIVE WELL TOGETHER

GOALS	INDICATOR
<p>To care about our employees (health, security, advanced training)</p>	<ul style="list-style-type: none"> • Rate of accident at work and work-related illness • Part of trained employees • Part of employees suffering from a disability
<p>To promote a sustainable supply chain</p>	<ul style="list-style-type: none"> • Part of the purchase done under the Group Purchase Charter
<p>To find a use for every products</p>	<ul style="list-style-type: none"> • Part of products sold and part of donation

TO RAISE SUSTAINABLY

GOALS	INDICATOR
<p>To foster and spread out sustainable rearing methods</p>	<ul style="list-style-type: none"> • Part of farms that are committed to organic, Label Rouge, Free-Range or Nature d'Eleveurs production
<p>To reinforce the local origin for the animal feeding</p>	<ul style="list-style-type: none"> • Part of the national origin feeding in our feeding plants
<p>To preserve local blockchains</p>	<ul style="list-style-type: none"> • Part of products containing meat coming from national origin

TO RESPECT THE LAND

GOALS	INDICATOR
<p>To reduce as much as possible our environmental footprint</p>	<ul style="list-style-type: none"> • Water and energy consumption • Number of the action plans fostered for energy and biodiversity • Waste recycling
<p>Acting on our packaging</p>	<ul style="list-style-type: none"> • Part of eco-friendly packaging
